

Welcome to the New Transpower Site!

Trans Power, Inc has been serving the South Georgia medium and heavy duty truck market since 1959 and currently has locations in Albany, Douglas, and Valdosta, Georgia.

Trans Power, Inc. is a distributor for Mack Trucks, Inc., Kenworth Truck Company, and Ford Motor Company. In addition, we also are distributor of vocational trailers from East Manufacturing Company and Peerless Trailers, Inc. Trans Power, Inc. also provides parts, service and sales, for the products we distribute. Trans Power, Inc. carries a parts inventory in excess of \$1.8 million dollars in replacement parts for our customers. All facilities provide state of the art equipment for repairs and our Albany location has a paint and body and trailer repair facility. In addition, we offer the largest paint booth in Southwest Georgia which is state of the art to provide superb quality painting. Trans Power, Inc. In Albany also has a Bee Line frame machine that can repair truck frame damage for most vehicles. All locations are equipped with Josam front end alignment equipment and can provide front end repair and alignment for most vehicles. If you are in the market for new or used equipment or need parts and service for your existing equipment please call on our staff to offer you a competitive quote.

Each of the three branch locations has parts, service, and sales departments to serve our customers. Our parts and sales departments are open for business from 8:00 am to 5:00 pm Monday through Friday and our service departments are open from 7:00 am to 5:00 pm Monday through Friday. All of our departments have factory trained professional available to assist our customers with their transportation needs.

Trans Power, Inc. Albany also has a body shop and trailer repair shop to serve our customers. We also have a front end rack and frame machine as well as a state of the paint booth to provide the highest quality painting of your equipment in this area.
